Wow! Children will delight in a ride on the Orient Express. This playful unit supports social-emotional and physical skills for young children. The intentional design encourages children to stay and play, which provides great fun and developmental benefits. In addition to being a place to sit alone or with friends, the Orient Express spurs stories about train rides,

supporting language skills. Sitting with friends stimulates social-emotional development, and friendship skills. The small holes invite exploration and provide children with opportunities to play peek-a-boo and other games. Young children will also enjoy moving around the train, and for younger children, pulling themselves up to stand will support

physical development.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
