Wow! This super double sandpit will inspire children to play for long periods of time, as they will have many opportunities to manipulate the sand and play side by side or along with others, when they are ready. Sand and water play is serious play for young children, who benefit greatly from opportunities to experiment with the properties of natural materials with

their fingers, hands, and arms. This play gives important input to the senses, and strengthens motor planning as well as fine motor skills. The double sandpit has ample room for many young children to play. The manipulatable objects and the window space enhance the play experiences. This structure is not only attractive but has many benefits for young

children who stay, play, and develop.

Panels of 19mm EcoCore™. EcoCore™ is a highly durable, eco friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled post consumer material from food packing waste.

The steel surfaces are hot dip galvanised inside and outside with lead free zinc. The galvanisation has excellent corrosion resistance in outside environments and requires low maintenance.

Play activities like the Funnel are made of injection moulded high quality nylon (PA6). PA6 has good wearing and impact strength and is UV stabilised.

Sand pipe is made from rotomoulded PE. PE has high impact resistance across a wide temperature span which ensures durability.

Play spheres are made of PP. PP has good wearing and impact resistance.

Sand strainer is made of high-quality stainless steel to ensure durability of the product.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
