The Music Play Panel is irresistible to young children. Its variation of materials, sounds, and cooperative play options keep children coming back, again and again, to participate in creative play, on their own or with friends and teachers. The music pies offer sensory variations with a tuned and tonal sound outcome. They train that hand-eye coordination that is crucial to control

of movement and fine motor skills like handwriting. The black rubber flaps can be plunked or pipes beat and tunes created. This develops the understanding of cause and effect and stimulates exploratory and creative play. The tonality of the music panel stimulates logical as well as creative thinking and invites cooperation and social play.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
