

Rumba Table, Square, 5ft 2in

PAR1008

Item no.	
General Product Information	
Dimensions LxWxH	159x80x72 cm
Age group	
Play capacity (users)	6
Colour options	

RUMBA comes with endless possibilities to realize seating in customized design for all outdoor environments. RUMBA is the most flexible way of marrying seating solutions to the environment, in perfect harmony - geometry meets geography. Built around simple circles and curves, they can be adapted to provide custom-built twists and turns. The standard

available benches and tables can be dressed up with back support, armrests, tables etc. and linked together into tailored solutions for the individual location.

Rumba Table, Square, 5ft 2in

PAR1008

Boards are made of ash wood from sustainable European sources. The ash wood is thermo treated according to CEN/TS 15679, durability class 2 according to EN350-2.

Bench is made of pine wood post pressure impregnated class AB with Tanalith E3475 according to EN335.

The steel surfaces are hot dip galvanized inside and outside with lead free zinc. The galvanization has excellent corrosion resistance in outdoor environments and require low maintenance.

The furniture is a freestanding product with optional anchoring possibilities. Kompan has multiple anchoring's to fit specific requirements for individual customer projects. The anchoring is sold as separate modules.

KOMPAN outdoor furniture is available for surface and in-ground installation. Surface installation by anchoring to base layer or in-ground installation as either direct in ground or additional hot dip galvanized steel brackets.

The benches and tables can be combined in multiple settings by choosing individual products or assembled into larger solutions. See catalogue pages for more inspiration.

Stainless steel components	Lifetime
Spare parts guaranteed	10 years

Cradle to Gate A1-A3	Total CO ₂ emission	CO ₂ e/kg	Recycled materials
	kg CO ₂ e	kg CO ₂ e/kg	%

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Validation of CO₂ calculation of: Park

Data version no. 2021-09-27

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Park" represented by item no.: PAR4070-0001. (Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 15. October 2021 | Valid until: 15. October 2023

Validated by:

Bente Hviid, Senior Consultant

Peter Bendtsen, Senior Consultant

Validation based on report: Validation of CO₂ calculation of 8 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Bente Hviid and Peter Bendtsen.
