This large chalkboard will support hours of play and learning in an outdoor learning environment or playground. The large space is plenty for many children to join in the mark making and drawing, which will help them to develop fine motor skills when drawing, and language and literacy skills when making signs. The large size supports social play, because

there is plenty of room for interaction and cooperation. Chalkboards can have direct benefits for learning, and they also enhance a variety of dramatic play scenarios, from playing school to making a sign for treasure hunting games. There are cognitive benefits to drawing and leaving your mark, because it stimulates brain development, creative thinking and thus

problem solving skills.

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))
