

You & Me Swing Seat

SW990131

Item no. SW990131-00

General Product Information

| | |
|-----------------------|---|
| Dimensions LxWxH | 65x87x0 cm |
| Age group | 1+ |
| Play capacity (users) | 2 |
| Colour options |   |

There is nothing as fun as swinging. The You & Me Seat adds to the joy by making it possible to swing in eye height with someone else. The back support helps younger children stay on the seat when the swinging starts. Their part of the swing has the seat positioned closer to the sturdy handholds, to add to the feeling of security. The older sibling or adult side is open

and here the sturdy steel handholds allow for extensive swing movements. The ride is more than mere fun: the swinging movements train the child's spatial awareness and sense of balance. A well-trained sense of balance and space helps children navigate the world securely, and adds to their self-confidence. Swinging together adds social-emotional

benefits, e.g. cooperation and the feeling of belonging. All of these are fundamental when making friends.

You & Me Swing Seat

SW990131

KOMPAN heavy duty designed swing hangers of stainless steel with anti-twist function. The hangers are attached to the cross beam on a welded bracket with two bolts. The bearings are embedded with silicone lubricant and needs no further lubrication.

The You & Me Swing seat is fitted with 6mm stainless steel chains.

Colored steel components has a base of hot dip galvanization and a powder coated top finish. This provides an ultimate corrosion resistance in all climates around the world.

Seat is made of a molded PP insert with an outer soft layer of TPE rubber. TPE rubber has good shock absorption and ensures durable solution.

The You & Me swing seat can be installed in KOMPAN Portal swing systems for the heights 2.5m and 3.0m. The swing seat is not applicable for 2.0m. Further it can be installed in Robinia swings with height 2.5m.

Note: As the You & Me seat uses heavy duty swing hangers the seat can not be fitted onto swings with traditional swing hangers. In such cases a new crossbeam with heavy duty hangers must be installed.

Item no. SW990131-00

Installation Information

| | |
|--------------------------|---------------------|
| Max. fall height | 235 cm |
| Safety surfacing area | 28,8 m ² |
| Total installation time | 0,4 |
| Excavation volume | 0,00 m ³ |
| Concrete volume | 0,00 m ³ |
| Footing depth (standard) | 0 cm |
| Shipment weight | 31 kg |
| Anchoring options | |

Warranty Information

| | |
|--------------------------|----------|
| Galvanized/painted metal | 10 years |
| Chains | 10 years |
| Movable parts | 2 years |
| Swing seat | 10 years |
| Spare parts guaranteed | 10 years |

The overall framework applied for these factors is the Environmental Product Declaration (EPD), which quantifies "environmental information on the life cycle of a product and enable comparisons between products fulfilling the same function" (ISO, 2006). This follows the structure and applies a Life-Cycle Assessment approach to the entire Product stage from raw material through manufacturing (A1-A3))

Validation of CO₂ calculation of: Freestanding play equipment

Data version no. 2021-09-27

The CO₂ calculation and data are in compliance with the principles of a carbon footprint impact according to the GHG protocol (Greenhouse Gas Protocol), Scope 3, cradle to gate related to all individual components in the product category: "Freestanding play equipment" represented by item no.: KSW92011-0910.

(Scope 3 emissions include emission sources in the upstream and downstream value chain).

Date: 15. October 2021 | Valid until: 15. October 2023

Validated by:

Bente Hviid, Senior Consultant

Peter Bendtsen, Senior Consultant

Validation based on report: Validation of CO₂ calculation of 8 categories of Kompan product line, version 1.0, prepared by: Bureau Veritas HSE, Denmark: Bente Hviid and Peter Bendtsen.
